

IN THE CLAIMS

Claims 12-13 have previously been canceled, without prejudice, as being drawn to a non-elected invention.

Claims 14-16 have previously been canceled, without prejudice, as being drawn to another non-elected invention.

Please amend claim 1.

Please enter the pending claims as follows:

1. (Currently Amended) A structure comprising:
 - a first set of features disposed in a scribeline, said first set of features being a subset of product features; and
 - a second set of features disposed in said scribeline and ~~merged directly into adjacent to~~ said first set of features, said second set of features occupying a smaller area than said first set of features, said second set of features created by geometric transformation of said product features, including rotating, space scaling, and linewidth scaling ~~being similar to said first set, said second set being distinguishable from surrounding structures by pattern recognition and evaluation of contrast, density, tone, and grey scale in an image.~~

2. (Original) The structure of claim 1 wherein critical dimension (CD) is measured on said first set of features.
3. (Original) The structure of claim 1 wherein said first set of features and said second set of features differ in spaces between features.
4. (Original) The structure of claim 1 wherein said first set of features and said second set of features differ in linewidths of features.
5. (Original) The structure of claim 1 wherein said first set of features and said second set of features have the same pitch for features.
6. (Original) The structure of claim 1 wherein said first set of features comprises a first array of holes.
7. (Original) The structure of claim 6 wherein said first array of holes comprises a 5-by-5 square array of holes.
8. (Original) The structure of claim 6 wherein said second set of features comprises a second array of holes.

9. (Original) The structure of claim 8 wherein said second array of holes differs from said first array of holes in size of array.

10. (Original) The structure of claim 8 wherein said second array of holes differs from said first array of holes in space between holes.

11. (Original) The structure of claim 8 wherein said second array of holes differs from said first array of holes in linewidths of holes.

12-16. (Canceled)
